## ADDITIONAL PRODUCT BENEFITS

### MANUAL

- ✓ **PREMIUM MATERIALS**  
The FRP material used on the doors is as durable as metal, but 38x less conductive.
- ✓ **SMOOTH OPERATION**  
U-shaped rollers glide smoothly along the rounded track for effortless opening and closing.
- ✓ **SUPERIOR INSULATION**  
New dart compression gasket features tool-free installation, seamless welded corners and rated for temperatures as low as -76°F.
- ✓ **LIMITLESS OPTIONS**  
Available as a single or bi-parting, 4" or 6", cooler or freezer, manual or electric, single or three phase and available in 120V, 208V, 230V, 240V or 460V.

#### DOE COMPLIANT

Products can be customized to meet all DOE specifications.

### ELECTRIC

- ✓ **FAST & EASY PROGRAMMING**  
Back-lit display, instructional videos, manuals & wiring diagrams simplify install and maintenance.
- ✓ **HYGIENIC & LOW MAINTENANCE**  
All motors are wash-down compatible and steel-reinforced belt requires no grease maintenance.
- ✓ **EXCLUSIVELY SILENT**  
Belt-driven door offers frictionless operation, unlike metal-on-metal chain drives.
- ✓ **FOOLPROOF SAFETY**  
UL Certified and intuitive manual override - no safety release required, pull to open.

#### HAND-CRAFTED & AMERICAN MADE

Each door is meticulously built to meet your precise specs and is backed by a 2-year warranty.
